

“...loving God and
our
neighbour.”

Caring for the whole person with commitment and integrity

MEETING THE NEEDS OF PEOPLE BY WORKING WITH AMERICAN MEDICAL AND DENTAL VOLUNTEERS TO PROVIDE COMMUNITY SERVICE PROGRAMS.

Every year we provide community service programs to the residents of the Braila area, providing free dental and medical consultations. Together with teams of volunteers from Serving HIM, we offer health care for thousands of people, providing high quality medical and dental care, various forms of medical testing, medications, toothpaste and toothbrushes, and nutritional and healthcare education. Through this we have the opportunity to share the love of God and the Good News of the Gospel.

DIACONIA is a medical ministry in Brăila, Romania, developed by The Holy Trinity Baptist Church with the sacrificial support of American Christians.

A DREAM COMING TRUE

DIACONIA Medical Center is a God given gift to the people of Braila, providing high-quality medical care in a part of the world that is still dealing with it's communist history.

Back in 1995 pastor Joseph Stefanuti shared with some US partners the vision that he had for a medical clinic based on Christian principles. Keith Davis from Spokane based IAP, caught his vision; in 1997 Diaconia Clinic began its work in a small, renovated house. The enthusiasm of it's staff made the clinic a real success in an area with a poor medical service. Shortly after, in 1998, a large dental team from Dallas came and offered their services in Braila. Dr. Kevin Seidler became very enthusiastic about the potential for ministry here, and along with some close friends began to envision the clinic operating in a larger multifunctional, modern facility. In order to fulfill this vision, he began *Serving Him*, a dental and medical ministry that began to raise funds for this project. The building process has been long, but has finally come to completion, and now the clinic operates in the magnificent new building.

Dr. Doina Dorobanțu, the first doctor to join our staff in 1998, seen with a patient.

WHAT WE DO

At this time we offer:

- general medical consultations
- general surgical consultations
- various tests such as ultrasound, EKG
- lab work such as CBC, glucose, cholesterol, tryglicerides, uric acid, creatinine, urea, calcium, total protein

POTENTIAL TO GROW

This medical center has been built with the desire to expand the medical services offered. We aim to add equipment in order to expand the laboratory services to include tests for immunology, coagulation, hematology and bacteriology.

At the same time, we would like to begin offering physical therapy services, add equipment for electrotherapy, and begin to permanently use the dental section of the clinic..

OUR VALUES:

- Serving with integrity
- Working with competence
- Caring for every patient
- Utilizing top quality equipment
- Pursuing excellence

OUR MISSION:

Our mission is to glorify God and serve the local community by offering the highest quality of medical service to all in need, as a practical way to live our faith.
